

# Toshihide Kitakado

*Tokyo University of Marine Science and Technology*

Statistical genetic modeling and estimation with latent variables and their applications to fisheries populations

**Friday, 22 September**  
**10:30 a.m.! FSH 213**

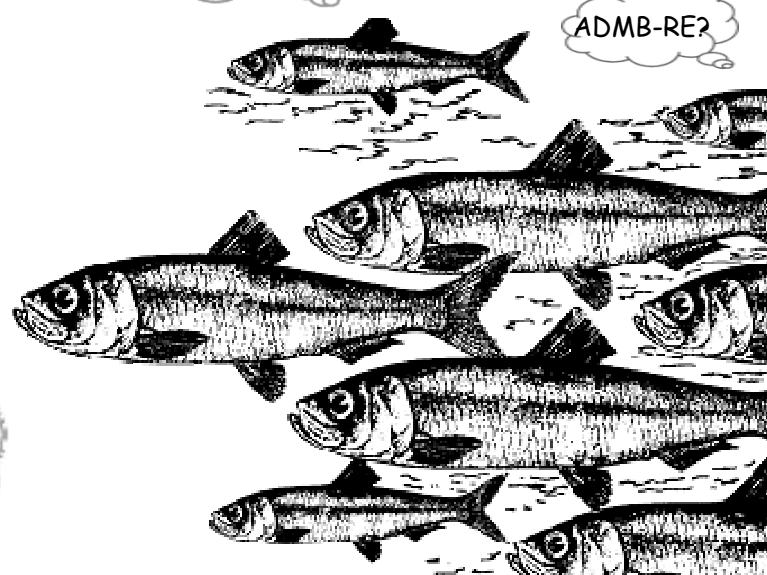

(weird place & time this week only)

It's early because of  
the lunch with new SAFS  
students at noon!

Elephants  
AND Herring?

$$\begin{aligned} z_1(0) &= \int_D L(0, \beta) d\beta \\ &= \prod_{i=1}^L \left\{ \prod_{k=1}^K \frac{N_k!}{\prod_{j=1}^L n_{kj}!} \cdot \frac{\Gamma(0)}{\Gamma(N_k + 0)} \right. \\ &\quad \left. \cdot \prod_{j=1}^L \frac{\Gamma(n_{kj} + 0\beta_j)}{\Gamma(0\beta_j)} \right\} \end{aligned}$$

And it's in  
room 213

ADMB-RE?
